

Criterion #1

The top face of each stack must be a colored letter.

Criterion #2

All colored letters and numbers must be on the North and South faces of each block.

Criterion #3

Blocks with colored numbers on them are not allowed in the finished construction.

Criterion #4

The East and West faces of the top block in each stack must be pictures.

Criterion #5

Any letter or number on the North face of a block must be upside-down.

Criterion #6

The South faces of the blocks in each stack should alternate between colored and non-colored.

Criterion #7

No letters or numbers on the West face of each block may be upside-down.

Criterion #8

No two adjacent blocks should have colored faces on the same side.

Criterion #9

For each stack, the East face of the bottom-most block must be a letter. The East face of the second block in a stack must be a picture. The East face of the third block in a stack must be a number.

Criterion #10

When viewed from any direction, no colored numbers may be visible.

Criterion #11

None of the blocks on the grid have a yellow or blue face.

Criterion #12

All blocks in the northern-most row have at least one red face.
