## Rubric for Building Blocks Project

Criteria	Points	Grade
A nicely formatted, readable algorithm. (simple & easy to follow/clarity – should not have grammatical problems, spelling errors, missing details, etc.)	5 pts	
Appropriate use of sequencing, selection, and/or iteration. (possibly not needed at all –OR- if used, should be clear looping, incrementing, etc.)	5 pts	
An algorithm that generates reproducible buildings/maps. (following steps as written without clarification or need to rethink, reread, etc.)	5 pts	
<b>TOTAL</b>	<b>15 pts</b>
